

# INFECTION CONTROL UPDATE 2013

## Satellite Conference and Live Webcast

Wednesday, April 17, 2013 9:00-10:30 a.m. (Central Time)  
10:00-11:30 a.m. (Eastern) • 8:00-9:30 a.m. (Mountain) • 7:00-8:30 a.m. (Pacific)

The prevention and management of disease transmission is vital to the overall health of Alabama citizens. This is why it is imperative that health care workers protect themselves when providing care for patients. Program faculty will review standard disease control precautions as defined by the Occupational and Safety Health Administration (OSHA). The DETECT, TEST, and REPORT program, reporting requirements, and treatment options for notifiable diseases will also be discussed.

### FACULTY

**Mary G. McIntyre, MD, MPH, SSBB**  
Assistant State Health Officer  
Disease Control and Prevention  
Alabama Department of Public Health

### PROGRAM OBJECTIVES

1. Identify the role of the health care and lay communities in outbreak investigations.
2. Describe the standard disease control precautions.
3. Name two outbreak investigations conducted by Alabama Department of Public Health staff.
4. Recognize the most accurate diagnosis, testing, treatment, and reporting of notifiable diseases.
5. Locate basic disease information and proper test methods at the ADPH website: [www.adph.org/epi](http://www.adph.org/epi)
6. Determine what diseases need to be reported, how they can be reported, and time frames for reporting.
7. Identify notifiable disease reporters.
